

PROSPECTUS SUPPLEMENT NO. 6
(to prospectus dated April 18, 2023)

NAUTICUS ROBOTICS, INC.

8,275,000 Shares of Common Stock

Up to 8,625,000 Shares of Common Stock Underlying Public Warrants to Purchase Common Stock

Up to 7,175,000 Shares of Common Stock Underlying Private Warrants to Purchase Common Stock

Up to 2,922,425 Shares of Common Stock Underlying Securities Purchase Agreement Warrants to Purchase Common Stock

Up to 2,922,425 Shares of Common Stock Underlying Convertible Debentures

This prospectus supplement is being filed to update and supplement the information contained in the prospectus dated April 18, 2023 (the "Prospectus"), with the information contained in Amendment No. 1 to the Quarterly Report on Form 10-Q/A filed by Nauticus Robotics, Inc. (the "Company") with the Securities and Exchange Commission (the "SEC") on August 10, 2023 (the "Amended Quarterly Report"). Accordingly, we have attached the Amended Quarterly Report to this prospectus supplement.

The Prospectus and this prospectus supplement relate to the offer and sale by us of (i) 862,500 shares of common stock, par value \$0.0001 per share ("Common Stock"), of Nauticus Robotics, Inc. (the "Company") which were issued upon the conversion of the rights to receive one twentieth (1/20) of one share of Common Stock (the "Right Shares") in connection with the closing of the Business Combination (defined below), (2) 8,625,000 shares of Common Stock (the "Public Warrant Shares") issuable upon the exercise of 8,625,000 redeemable warrants, which are exercisable at a price of \$11.50 per share (the "Public Warrants") and (3) 7,175,000 shares of Common Stock (the "Private Warrant Shares") issuable upon the exercise of 7,175,000 redeemable warrants, purchased by CleanTech Sponsor I LLC and CleanTech Investments, LLC (together, the "Co-sponsors") at a price of \$1.00 per Private Warrant pursuant to a subscription agreement entered into in connection with CLAQ's (defined below) initial public offering ("IPO"), which are exercisable at a price of \$11.50 per share (the "Private Warrants").

The Prospectus and this prospectus supplement also relate to the resale from time to time by the selling securityholders named in the Prospectus or their permitted transferees (the "Selling Securityholders") of (i) 4,312,500 shares of Common Stock (the "Founder Shares") that were issued to the Co-sponsors in conjunction with the IPO at a purchase price equivalent to approximately \$0.00058 per Founder Share and subsequently converted upon the closing of the Business Combination and (ii) 3,100,000 shares of Common Stock purchased by certain Selling Securityholders at a price of \$10.00 per share of Common Stock, and issued pursuant to the terms of certain subscription agreements entered into in connection with the Business Combination pursuant to the Merger Agreement (the "Merger Agreement," and together with the other agreements and transactions contemplated thereby, the "Business Combination") by and among CleanTech Acquisition Corp. ("CleanTech" or "CLAQ"), Nauticus Robotics Holdings, Inc. (formerly known as "Houston Mechatronics, Inc."), a Texas corporation ("Nauticus Robotics Holdings"), and CleanTech Merger Sub, Inc. ("Merger Sub"), a wholly-owned subsidiary of CleanTech. Pursuant to the Merger Agreement, in connection with the consummation of the Business Combination Merger Sub merged with and into Nauticus Robotics Holdings, with Nauticus Robotics Holdings surviving the merger as a wholly owned subsidiary of the Company, and the Company was renamed "Nauticus Robotics, Inc."

Further, the Prospectus and this prospectus relate to the offer and sale by us of (i) 2,922,425 shares of Common Stock (the "SPA Warrant Shares") which have been or may be issued from time to time upon the exercise of 2,922,425 warrants that were issued to certain Selling Securityholders (the "SPA Investors") pursuant to the SPA, with an exercise price of \$20.00 per share (the "SPA Warrants") and (ii) 2,922,425 shares of Common Stock (the "Debenture Shares" and together with the SPA Warrant Shares, the "SPA Shares") issuable upon the conversion of the debentures (the "Debentures") that were purchased by certain Selling Securityholders pursuant to the SPA, with a conversion price of \$15.00 per share. Pursuant to the Securities Purchase Agreement by and among the Company, Nauticus Robotics Holdings, and the SPA Investors (the "SPA"), the SPA Investors subscribed for Debentures in an aggregate principal amount of \$36,530,320. In exchange for such subscriptions, Nauticus delivered to such Selling Securityholders (i) a Debenture with a principal amount equal to such Selling Securityholder's subscription amount and (ii) SPA Warrants.

This prospectus supplement updates and supplements the information in the Prospectus and is not complete without, any may not be delivered or utilized except in combination with, the Prospectus, including any amendments or supplements thereto. This prospectus supplement should be read in conjunction with the Prospectus and if there is any inconsistency between the information in the Prospectus and this prospectus supplement, you should rely on the information in this prospectus supplement.

Our Common Stock is listed on the Nasdaq Stock Market LLC under the symbol "KITT." On August 10, 2023, the closing price for our Common Stock was \$1.81 per share.

Investing in our securities involves risks that are described in the "Risk Factors" section beginning on page 12 of the Prospectus and page 25 of the Amended Quarterly Report. Neither the SEC nor any state securities commission has approved or disapproved of the securities to be issued under the Prospectus or determined if the Prospectus or this prospectus supplement is truthful or complete. Any representation to the contrary is a criminal offense.

The date of this prospectus is August 11, 2023.

FORM 10-Q/A
Amendment No. 1

(Mark One)

QUARTERLY REPORT UNDER SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 31, 2023

□ TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number: 001-40611

NAUTICUS ROBOTICS, INC.
(Exact name of registrant as specified in its charter)

Delaware

(State or other jurisdiction
of incorporation)

85-1699753

(IRS Employer
Identification No.)

**17146 FEATHERCRAFT LANE, SUITE 450,
WEBSTER, TEXAS 77598**
(Address of principal executive offices and zip code)

(281) 942-9069
(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading symbol(s)	Name of each exchange on which registered
Common Stock	KITT	The Nasdaq Stock Market LLC
Redeemable Warrants	KITTW	The Nasdaq Stock Market LLC

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15 (d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act:

Large accelerated filer
Non-accelerated filer

Accelerated filer
Smaller reporting company
Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act.) Yes No

As of May 15, 2023, the registrant had 47,507,796 shares of common stock outstanding.

EXPLANATORY NOTE

Nauticus Robotics, Inc. ("we," "our," "us," or the "Company") is filing this Amendment No. 1 on Form 10-Q/A (this "Amendment") to amend our Quarterly Report on Form 10-Q for the quarter ended March 31, 2023, originally filed with the Securities and Exchange Commission (the "SEC") on May 15, 2023 (the "Original Filing"), to amend and restate our unaudited condensed consolidated financial statements and the accompanying notes as of and for the period ended March 31, 2023. This Amendment also amends certain other items in the Original Filing, as listed under "Items Amended In This Filing" below.

This Amendment, among other things, corrects an error associated with the untimely recognition of an accrued liability and expense associated with liquidated damages and related interest amounts arising out of that certain Registration Rights Agreement, dated as of September 9, 2022, between the Company and certain investors ("RRA"). Pursuant to generally accepted accounting principles in the United States ("GAAP"), the liquidated damages and interest amounts should have been recorded as an accrued liability and interest expense under other (income) expense when such amounts became probable and estimatable. The affected period is the quarter ended March 31, 2023.

SEC Staff Accounting Bulletin No. 99, "Materiality," and FASB, Statement of Financial Accounting Concepts No. 2 "Qualitative Characteristics of Accounting Information" indicate that quantifying and aggregating errors is only the beginning of an analysis of materiality and that both quantitative and qualitative factors must be considered in determining whether individual errors are material. The Company evaluated the impact of the abovementioned error and has determined that such impact was material for the period ended March 31, 2023. Accordingly, we have restated our condensed consolidated financial statements for the affected period.

The accounting for liquidated damages and related interest arising out of the RRA had no impact on our liquidity, cash flows, revenues or costs of operations in the affected period.

INTERNAL CONTROL OVER FINANCIAL REPORTING AND DISCLOSURE CONTROLS AND PROCEDURES

After re-evaluation, the Company's management has concluded that the error described above was attributable to a previously identified material weakness in the Company's

internal control over financial reporting during the affected period and that, as a result, the Company's disclosure controls and procedures were not effective during the affected period. The Company's remediation plan concerning such material weakness is described in more detail in Part I, Item 4 of this filing.

ITEMS AMENDED IN THIS FILING

For the convenience of the reader, this Amendment amends and restates the Original Filing in its entirety. As a result, this Amendment includes both items that have been changed as a result of the restatement described above as well as items that are unchanged from the Original Filing. The following items have been amended pursuant to this Amendment to reflect the restatement described above:

<u>Part I — Financial Information</u>		
Item 1.	Financial Statements	1
Item 2.	Management's Discussion and Analysis of Financial Condition and Results of Operations	20
<u>Part II — Other Information</u>		
Item 6.	Exhibits	28

Refer to "Note 2 – Previously Reported Financial Statements" to the condensed consolidated financial statements included in this Amendment for additional information, including a summary of the accounting impacts of the adjustments to the Company's financial statements as of and for the period ended March 31, 2023.

Except as otherwise expressly stated herein, this Amendment does not reflect events occurring after the date of the Original Filing, nor does it modify or update the disclosure contained in the Original Filing in any way other than as required to reflect the amendments discussed above and reflected below. Accordingly, this Amendment should be read in conjunction with the Original Filing and the Company's other filings made with the SEC on or subsequent to May 15, 2023.

In addition, in accordance with applicable SEC rules, this Amendment includes new certifications required by Sections 302 and 906 of the Sarbanes-Oxley Act from our Chief Executive Officer (as principal executive officer) and our Chief Financial Officer (as principal financial officer) dated as of the filing date of this Amendment.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Amendment No. 1 to our Quarterly Report on Form 10-Q/A ("Form 10-Q/A" or "Amendment") contains "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Forward-looking statements appear in a number of places in this Form 10-Q/A including, without limitation, in the section titled "Management's Discussion and Analysis of Financial Condition and Results of Operations". In addition, any statements that refer to projections, forecasts or other characterizations of future events or circumstances, including any underlying assumptions, are forward-looking statements. Forward-looking statements are typically identified by words such as "plan," "believe," "expect," "anticipate," "intend," "outlook," "estimate," "forecast," "project," "continue," "could," "may," "might," "possible," "potential," "predict," "should," "would" and other similar words and expressions, but the absence of these words does not mean that a statement is not forward-looking.

The forward-looking statements are based on the current expectations of our management and are inherently subject to uncertainties and changes in circumstances and their potential effects and speak only as of the date such statements are made. These forward-looking statements involve a number of risks, uncertainties or other assumptions that may cause actual results or performance to be materially different from those expressed or implied by these forward-looking statements. These risks and uncertainties include, but are not limited to, those described in "Item 1A. Risk Factors" and other sections in the Annual Report on Form 10-K filed by us on March 28, 2023 and those described in this Form 10-Q/A.

These and other factors could cause actual results to differ from those implied by the forward-looking statements. Forward-looking statements are not guarantees of performance and speak only as of the date hereof. There can be no assurance that future developments will be those that have been anticipated or that we will achieve or realize these plans, intentions, or expectations.

All forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by the foregoing cautionary statements. We undertake no obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.

In addition, statements of belief and similar statements reflect our beliefs and opinions on the relevant subject. These statements are based upon information available to us as of the date they are made, and while we believe such information forms a reasonable basis for such statements, such information may be limited or incomplete, and statements should not be read to indicate that we have conducted an exhaustive inquiry into, or review of, all potentially available relevant information. These statements are inherently uncertain and you are cautioned not to unduly rely upon these statements.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

1. Description of the Business

Nauticus Robotics, Inc. (“Nauticus,” the “Company,” “our,” “us,” or “we”) is a developer of ocean robots, software, and services delivered in a modern business model to the ocean industry. We were initially incorporated as CleanTech Acquisition Corp. (“CLAQ”) under the laws of the State of Delaware on June 18, 2020. The Company’s principal corporate offices are located in Webster, Texas. Our robotics products and services are delivered to commercial and government-facing customers through a Robotics as a Service (“RaaS”) business model and direct product sales for both hardware platforms and software licenses. Besides a standalone service offering and forward-facing products, our approach to ocean robotics has also resulted in the development of a range of technology products for retrofitting/upgrading legacy systems and other 3rd party vehicle platforms. Our services provide customers with the necessary data collection, analytics, and subsea manipulation capabilities to support and maintain assets while reducing their operational footprint, operating cost, and greenhouse gas emissions, and to improve offshore health, safety, and environmental exposure.

Business Combination - On September 9, 2022 (the “Closing Date”), Nauticus Robotics, Inc. consummated its business combination pursuant to that certain Agreement and Plan of Merger (the “Merger Agreement,” and together with any amendment, the other agreements and transactions contemplated by the Merger Agreement, the “Business Combination”) with CleanTech Merger Sub, Inc., a Texas corporation and wholly owned subsidiary of CLAQ (“Merger Sub”), and Nauticus Robotics Holdings, Inc. (prior to the Closing Date, “Nauticus Robotics, Inc.”), a Texas corporation (“Nauticus Robotics Holdings”). Pursuant to the terms of the Merger Agreement, a business combination between CLAQ and Nauticus Robotics Holdings was affected through the merger of Merger Sub with and into Nauticus Robotics Holdings, with Nauticus Robotics Holdings surviving the merger as a wholly owned subsidiary of CLAQ. On the Closing Date, CLAQ was renamed “Nauticus Robotics, Inc.” and the previous Nauticus Robotics, Inc. was renamed “Nauticus Robotics Holdings, Inc.”

At the closing, among other things, (a) each share of Nauticus Preferred Stock, par value \$0.01 per share, that was issued and outstanding immediately prior to the closing converted into shares of Nauticus Common stock, par value \$0.01 per share, (“Nauticus Preferred Stock Conversion”); (b) each of Nauticus Robotic Holdings, Inc.’s unsecured convertible note obligations outstanding was converted into shares of Nauticus Common Stock in accordance with the terms of each such Nauticus Convertible Note (“Nauticus Convertible Notes Conversion”); and (c) each share of Nauticus Common Stock (including shares of Nauticus Common Stock outstanding as a result of the Nauticus Preferred Stock Conversion and Nauticus Convertible Notes Conversion) was converted into the right to receive (i) the per share merger consideration and (ii) Earnout Shares (defined below).

Shares issued at closing are summarized as follows (i) an aggregate of 36,650,778 shares of Common Stock, par value \$0.0001 (the “Common Stock” of CLAQ prior to the Closing, and the Common Stock of Nauticus following the Closing) shares were issued to holders of Nauticus Common Stock in the Business Combination (ii) the right to receive 7,499,993 additional shares of Common Stock held in escrow pursuant to the terms of the Merger Agreement and as further described below (such additional escrowed shares, the “Earnout Shares”) and (iii) the issuance of 3,100,000 shares of Common Stock for the Equity Financing (as described below). An aggregate of 47,250,771 shares of Common Stock (inclusive of the Earnout Shares) was issued after the Business Combination.

Former holders of Nauticus Robotics Holdings, Inc. Common Stock are entitled to receive their pro rata share of up to 7,499,993 additional Earnout Shares of Common Stock that were issued and are held in escrow. The Earnout Shares will be released from escrow upon occurrence of the following (each, a “Triggering Event”):

- i. one-half of the Earnout Shares will be released if, within a 5-year period from Closing Date, the volume-weighted average price of our Common Stock equals or exceeds \$15.00 per share over any 20 trading days within a 30-day trading period;
- ii. one-quarter of the Earnout Shares will be released if, within a 5-year period from Closing Date, the volume-weighted average price of our Common Stock equals or exceeds \$17.50 per share over any 20 trading days within a 30-day trading period; and
- iii. one-quarter of the Earnout Shares will be released if, on or after December 31, 2022, within a 5-year period from Closing Date, the volume-weighted average price of our Common Stock equals or exceeds \$20.00 per share over any 20 trading days within a 30-day trading period.

(UNAUDITED)

At closing, we received proceeds from Private Investment in a Public Entity subscribers (“PIPE Investment”) consisting of:

- the issuance of 3,100,000 shares of Common Stock, for a purchase price of \$10.00 per share, and an aggregate purchase price of \$31 million (the “Equity Financing”), and
- the issuance of secured Debentures with SPA Warrants (as defined below) having an aggregate principal amount of \$36,530,320 (the “Debentures”) pursuant to a securities purchase agreement (the “Securities Purchase Agreement”) with certain investors providing net proceeds of \$35,800,000 inclusive of a 2% original issue discount. The fair value of the SPA Warrants was estimated to be \$20,949,110 using a Monte Carlo valuation model incorporating future projections of the various potential outcomes and any exercise price adjustments based on future financing events. The Debentures are convertible into 2,922,425 shares of Common Stock and associated warrants for an additional 2,922,425 shares with an exercise price equal to \$20 per share, subject to adjustment (“SPA Warrants”).

The Business Combination was accounted for as a reverse recapitalization under generally accepted accounting principles in the United States (“GAAP”). Nauticus Robotics

Holdings Inc. was determined to be the accounting acquirer and CLAQ was treated as the acquired company for financial reporting purposes. Accordingly, the financial statements of the combined company represent a continuation of the financial statements of Nauticus Robotics Holdings Inc.

On September 9, 2022, the Company received from the Business Combination with CLAQ net cash of \$14,947,875. The Company also assumed \$30,157 in prepaids, \$14,796,942 in accounts payable and accrued liabilities, \$850,333 in notes payable and net equity of \$(669,243).

CLAQ's net cash at the Closing Date totaled \$14,947,875. This amount, together with proceeds of the PIPE Investment, were available to repay certain indebtedness, transaction costs and for general corporate purposes.

The Company incurred \$12,582,000 in direct and incremental costs associated with the Business Combination and Equity Financing, which primarily consisted of investment banking, legal, accounting, and other professional fees.

Impact of COVID-19 Pandemic on Business – The global spread of COVID-19 created significant market volatility and economic uncertainty and disruption during 2021 and 2022. The Company was adversely affected by the deterioration and increased uncertainty in the macroeconomic outlook as a result of the impact of COVID-19. We have experienced and may continue to experience disruptions in our supply chain, due in part to the global impact of the COVID-19 pandemic. Depending upon the duration of the ongoing COVID-19 pandemic-related business interruptions, our customers, suppliers, manufacturers and partners may suspend or delay their engagements with us, which could result in a material adverse effect on our financial condition and ability to meet current timelines. In addition, the COVID-19 pandemic has affected and may continue to affect our ability to recruit skilled employees to join our team. The conditions caused by the COVID-19 pandemic have adversely affected and may continue to adversely affect, among other things, demand for our products and the ability to test and assess our robotic systems with potential customers, any of which adversely affects our business, results of operations, and financial condition. The duration and extent of the COVID-19 pandemic's impacts cannot be accurately predicted at this time, and the ultimate direct and indirect impacts on our business, results of operations, and financial condition will depend on future developments that are highly uncertain.

Liquidity – The Company has had recurring losses and negative cash flows since inception. As such, the Company has been dependent on debt and equity funding to meet its development efforts. The Company continues to develop its principal products and conducts extensive research and development activities.

We anticipate needing additional capital to continue expanding our business operations, which may include acquisitions and capital expenditures. Currently, the Company does not generate sufficient revenue to cover operating expenses, working capital, and capital expenditures. We have historically financed our operations through equity and debt financing. We do not have any commitments for equity funding at this time, and additional funding may not be available to us on favorable terms, if at all. We are considering reducing discretionary spending and other cost-cutting measures, which may be implemented in the near-term to the extent additional financing is not raised. The Company has not yet implemented material cost-cutting measures but will assess as needed to meet capital requirements for our business operations. There are no assurances that we can raise sufficient additional capital from external sources or implement material cost-cutting measures. The inability to successfully effectuate either measure could force us to curtail or discontinue our operations. However, utilizing cost control measures, cash on hand, revenue from operations, and potential future equity and debt funding, the Company anticipates having sufficient funds to meet its obligations for at least one year from the issuance date of this Form 10-Q/A.

NAUTICUS ROBOTICS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

2. Summary of Significant Accounting Policies

Basis of Presentation – The accompanying condensed consolidated financial statements have been prepared by the Company without audit pursuant to the rules and regulations of the U.S. Securities and Exchange Commission (“SEC”) and, in the opinion of management, include all adjustments (consisting of normal, recurring adjustments, unless otherwise disclosed) necessary for a fair statement of the condensed consolidated results of operations, financial position, cash flows and changes in stockholders’ equity (deficit) for each period presented. All intercompany balances and transactions have been eliminated in preparation of these condensed consolidated financial statements. The consolidated results for the interim periods are not necessarily indicative of results to be expected for the full year. The 2022 year-end condensed consolidated balance sheet was derived from audited financial statements but does not include all disclosures required by accounting principles generally accepted in the United States (“GAAP”). These financial statements should be read in conjunction with Nauticus Robotics Inc. Form 10-K for the year ended December 31, 2022.

Summary of Significant Accounting Policies – The Company’s significant accounting policies are discussed in Note 1 to Nauticus Robotics Inc.’s financial statements in the Form 10-K filed with the SEC for the year ended December 31, 2022. There have been no significant changes to these policies which have had a material impact on the Company’s interim unaudited condensed consolidated financial statements and related notes during the three months ended March 31, 2023.

Use of Estimates – The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Significant items subject to such estimates and assumptions include the (i) estimates of future costs to complete customer contracts recognized over time, (ii) valuation allowances for deferred income tax assets, (iii) valuation of stock-based compensation awards and (iv) the valuation of conversion options, warrants and earnouts. Actual results could differ from those estimates.

Cash and Cash Equivalents – The Company classifies all highly-liquid instruments with an original maturity of three months or less as cash equivalents. The Company maintains cash and cash equivalents in bank deposit accounts, which at times may exceed federally insured limits of \$250,000. Historically, the Company has not experienced any losses in such accounts.

Restricted Certificate of Deposit – The restricted certificate of deposit on March 31, 2023 and 2022 is held with a bank and is used as a guarantee against corporate credit cards.

Short-term Investments – Short-term investments on December 31, 2022, include an investment in a US Treasury Bill maturing March 14, 2023. The original maturity for this investment was more than three months and any change in the investment is recognized in the statement of operations. On March 14, 2023, the Company received proceeds of \$4,959,263 at maturity and was recognized in statement of cash flows under investing activities.

Revenue – Our primary sources of revenue are from providing technology, engineering services and products to the offshore industry and governmental entities. Revenue is generated pursuant to contractual arrangements to design and develop subsea robots and software and to provide related engineering, technical, and other services according to the specifications of the customers. These contracts can be service sales (cost plus fixed fee or firm fixed price) or product sales and typically have terms of up to 18 months. The Company has no product sales for the three months ended March 31, 2023 and 2022, respectively, as its core products are still under development.

A performance obligation is a promise in a contract to transfer distinct goods or services to a customer. For all contracts, we assess if there are multiple promises that should be accounted for as separate performance obligations or combined into a single performance obligation. We generally separate multiple promises in a contract as separate performance obligations if those promises are distinct, both individually and in the context of the contract. If multiple promises in a contract are highly interrelated or require significant integration or customization within a group, they are combined and accounted for as a single performance obligation.

Our performance obligations under service agreements generally are satisfied over time as the service is provided. Revenue under these contracts is recognized over time using an input measure of progress (typically costs incurred to date relative to total estimated costs at completion). This requires management to make significant estimates and assumptions to estimate contract sales and costs associated with its contracts with customers. At the outset of a long-term contract, the Company identifies risks to the achievement of the technical, schedule and cost aspects of the contract. Throughout the contract term, on at least a quarterly basis, we monitor and assess the effects of those risks on its estimates of sales and total costs to complete the contract. Changes in these estimates could have a material effect on our results of operations.

NAUTICUS ROBOTICS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

Firm-fixed price contracts present the risk of unreimbursed cost overruns, potentially resulting in lower-than-expected contract profits and margins. This risk is generally lower for cost plus fixed fee contracts which, as a result, generally have a lower margin.

Performance obligations for product sales are typically satisfied at a point in time. This occurs when control of the products is transferred to the customer, which generally is when title and risk of loss have passed to the customer.

Inventories – Inventories include raw materials and work in progress used in the construction and installation of a portfolio of ocean robotics systems technology products that include the Aquanaut and Olympic Arm. Raw materials consist of composite marine structures, commercial off-the-shelf or COTS, batteries, and hardware and electrical components. Work in progress inventories consist of raw materials and labor for construction of projects. Inventories are stated at the lower of cost or net realizable value. Cost is determined using the first-in, first-out method. The Company periodically reviews inventories for specifically identifiable items that are unusable or obsolete based on assumptions about future demand and market conditions. Based on this evaluation, we make provisions for unusable and obsolete inventories in order to write inventories down to their net realizable value.

Inventories consisted of the following:

	March 31, 2023	December 31, 2022
Raw material and supplies	\$ 1,302,500	\$ 1,499,030
Work in progress	9,711,069	5,167,882
Finished goods	-	-
Total inventories	<u>\$ 11,013,569</u>	<u>\$ 6,666,912</u>

Leases – The Company’s lease arrangements are operating leases which are capitalized on the balance sheet as right-of-use (“ROU”) assets and obligations. ROU assets represent our right to use an underlying asset for the lease term and lease liabilities represent our obligation to make lease payments arising from the lease. These are recognized at the lease commencement date based on the present value of payments over the lease term. If leases do not provide for an implicit rate, we use our incremental borrowing rate based on the estimated rate of interest for collateralized borrowing over a similar term as the lease payments. Lease expense for operating leases is recognized on a straight-line basis over the lease term.

Stock-Based Compensation – The Company accounts for employee stock-based compensation using the fair value method. Compensation cost for equity incentive awards is based on the fair value of the equity instrument generally on the date of grant and is recognized over the requisite service period. The Company’s policy is to issue new shares upon the exercise or conversion of options and recognize option forfeitures as they occur.

Income Taxes – Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. In assessing the realizability of deferred tax assets, management considers whether it is more-likely-than-not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible. Management considers the scheduled reversal of deferred tax asset (including the impact of available carryback and carryforward periods), projected future taxable income, and tax-planning strategies in making this assessment. A valuation allowance for deferred tax assets is recorded when it is more likely than not that the benefit from the deferred tax asset will not be realized.

The Company recognizes the effect of income tax positions only if those positions are more likely than not of being sustained. Recognized income tax positions are measured at the largest amount that is greater than 50% likely of being realized. Changes in recognition or measurement are reflected in the period in which a change in judgment occurs. The Company had no material uncertain tax positions as of March 31, 2023 and December 31, 2022.

Foreign Currency Gains and Losses – Nauticus purchases certain materials and equipment from foreign companies and these transactions are generally denominated in the vendors’ local currency. The Company recorded a foreign currency gain of \$9,884 for the three months ended March 31, 2023, and a foreign currency loss of \$9,848 for the three months ended March 31, 2022, that are included in other (income) expense, net.

NAUTICUS ROBOTICS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

Common Stock Warrants – We account for common stock warrants as either equity-classified or liability-classified instruments based on an assessment of the warrant’s specific terms and applicable authoritative guidance. This assessment considers whether the warrants are freestanding financial instruments, meet the definition of a liability or requirements for equity classification, including whether the warrants are indexed to the Company’s Common Stock, among other conditions for equity classification. This assessment, which requires the use of professional judgment, is conducted at the time of warrant issuance and as of each subsequent quarterly period end date while the warrants are outstanding.

We have determined that the Private Warrants and Public Warrants should be accounted for as liabilities. The Private Warrants and Public Warrants were initially recorded at their estimated fair value on the Closing Date and are then revalued at each reporting date thereafter, with changes in the fair value reported in the condensed consolidated statements of operations. Derivative warrant liabilities are classified in the balance sheet as current or non-current based on whether or not net-cash settlement or conversion of

the instrument could be required within 12 months of the balance sheet date. The fair value of the Private Warrants was estimated using a Black-Scholes option pricing model (a Level 3 measurement). The Public Warrants are valued using their publicly-traded price at each measurement date (a Level 1 measurement).

We have determined that the SPA Warrants should be accounted for as liabilities. The SPA Warrants were initially recorded at their estimated fair value on the Closing Date and are then revalued at each reporting date thereafter, with changes in the fair value reported in the consolidated statements of operations. Derivative warrant liabilities are classified in the balance sheet as current or non-current based on whether or not net-cash settlement or conversion of the instrument could be required within 12 months of the balance sheet date. At the Closing Date, the SPA Warrants fair value upon issuance was estimated using a Monte Carlo valuation model (a Level 3 measurement).

Earnout Shares – Earnout Shares, issuable to former holders of Nauticus Robotics Holdings, Inc.’s Common Stock, are held in escrow. The Earnout Shares will be released upon occurrence of a Triggering Event within five years of the Closing Date. The Earnout Shares are considered legally issued and outstanding shares of Common Stock subject to restrictions on transfer and potential forfeiture pending the achievement of the earnout targets. The Company evaluated the Earnout Shares and concluded that they meet the criteria for equity classification. The Earnout Shares were classified in stockholders’ equity, recognized at fair value upon the closing of the Business Combination and will not be subsequently remeasured. Their estimated fair value upon issuance is determined using a Monte Carlo valuation model (a Level 3 measurement).

Capitalized Interest – The Company capitalizes interest costs incurred to work in progress during the related construction periods. Capitalized interest is charged to cost of revenue when the related completed project is delivered to the buyer. During the three months ended March 31, 2023 and 2022, the Company capitalized interest totaling \$234,985 and \$34,467, respectively, to work in progress attributable to inventories and property and equipment.

Major Customer and Concentration of Credit Risk– We have a limited number of customers. During the three months ended March 31, 2023, sales to two customers accounted for 99% of total revenue. The total balance due from these customers as of March 31, 2023, comprised 91% of accounts receivable. During the three months ended March 31, 2022, sales to two customers accounted for 99% of total revenue. The total balances due from these customers as of December 31, 2022, made up 82% of accounts receivable. No other customer represented more than 10% of our revenue. Loss of these customers could have a material adverse impact on the Company.

Reclassifications – Financial statements presented for prior periods include reclassifications that were made to conform to the current-period presentation.

Recent Accounting Pronouncements – In September 2022, the FASB issued ASU 2022-04, Liabilities – Supplier Finance Programs (Subtopic 405-60): Disclosure of Supplier Finance Program Obligations, which requires companies to disclose the use and impact of such programs on a company’s working capital, liquidity, and cash flow. We adopted this standard on January 1, 2023. We do not utilize Supplier Finance Programs and therefore no further disclosure is required.

NAUTICUS ROBOTICS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

In June 2016, the FASB issued ASU No. 2016-13, an amendment to ASC 326 *Financial Instruments - Credit Losses*, which changes the impairment model for certain financial assets that have a contractual right to receive cash, including trade and loan receivables. The new model requires recognition based upon an estimation of expected credit losses rather than recognition of losses when it is probable that they have been incurred. An entity will apply the amendment through a cumulative-effect adjustment to retained earnings as of the beginning of the first reporting period in which the guidance is effective. The Company has adopted this standard as of January 1, 2023 and there was no impact on its financial position, results of operations and cash flows upon adoption.

In March 2022, the FASB issued ASU No. 2022-02, an amendment to ASC 326 *Financial Instruments-Credit Losses*, which eliminates the accounting guidance for creditors in troubled debt restructuring. It also aligns conflicting disclosure requirement guidance in ASC 326 by requiring disclosure of current-period gross write-offs by year of origination. The amendment also adds new disclosures for creditors with loan refinancing and restructuring for borrowers experiencing financial difficulty. The Company has adopted this standard as of January 1, 2023, and there was no impact on its financial position, results of operations and cash flows upon adoption.

There are no other new accounting pronouncements that are expected to have a material impact on our condensed consolidated financial statements.

Restatement of prior financial information– Under the terms of the RRA, the Company was required to (i) file a registration statement (the “Initial Registration Statement”) within 15 business days of the closing of the Business Combination and (ii) use its best efforts to cause such registration statement to be declared effective as promptly as possible after the filing thereof, but in any event no later than the applicable Effectiveness Date (as defined in the RRA) (the “Registration Requirements”). The RRA additionally provided for liquidated damages if the Registration Requirements were not met.

SEC Staff Accounting Bulletin No. 99, “Materiality,” and FASB, Statement of Financial Accounting Concepts No. 2 “Qualitative Characteristics of Accounting Information” indicate that quantifying and aggregating errors is only the beginning of an analysis of materiality and that both quantitative and qualitative factors must be considered in determining whether individual errors are material. The Company evaluated the impact of the error identified by the Company with respect to the amounts arising out of the RRA, as described in further detail elsewhere herein, and determined that such impact was material for the period ended March 31, 2023. Accordingly, we have restated our condensed consolidated financial statements for the affected period.

Subsequent to the time that the Initial Registration Statement was declared effective by the SEC, the Company determined that, pursuant to GAAP, liquidated damages and related interest amounts should have been recorded as an accrued liability and interest expense under other (income) expense, net when such amounts became probable and estimatable. The Company’s accrual of such estimated amounts at March 31, 2023, includes liquidated damages and interest of \$2,864,000 and \$1,094,645, respectively, for a total amount of \$3,958,645.

The condensed consolidated financial statements and certain of the notes to the condensed consolidated financial statements as of and for the three months ended March 31, 2023, have been restated to reflect the corrections. The impact of the restatement for the period ended March 31, 2023, is shown in the tables below and did not change the Company’s reported total assets, cash and cash equivalents, operating expenses, operating losses or cash flows from operations.

	March 31, 2023		
	As Previously Reported	Adjustment	As Restated
Accrued liabilities	3,656,268	3,958,645	7,614,913
Total current liabilities	6,611,133	3,958,645	10,569,778
Total liabilities	58,372,612	3,958,645	62,331,257
Accumulated deficit	(78,285,122)	(3,958,645)	(82,243,767)
Total stockholders’ equity (deficit)	(8,878,148)	(3,958,645)	(12,836,793)
	Three Months Ended March 31, 2023		
	As Previously Reported	Adjustment	As Restated

Statement of Operation data			
Interest expense, net	976,422	3,958,645	4,935,067
Net loss	(10,180,020)	(3,958,645)	(14,138,665)
Basic and diluted loss per share	\$ (0.26)	\$ (0.10)	\$ (0.36)

10

NAUTICUS ROBOTICS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

3. Revenue

The following table presents the components of our revenue:

	Three months ended March 31,	
	2023	2022
Cost plus fixed fee	\$ 1,949,509	\$ 1,423,259
Firm fixed-price	871,271	434,373
Firm fixed-price-vehicle lease	-	378,333
Total	<u>\$ 2,820,780</u>	<u>\$ 2,235,965</u>

Our performance obligations under service agreements are generally satisfied over time as the service is provided and, therefore, all revenue above has been recognized over time.

Contract Balances – Accounts receivable, net at March 31, 2023 totaled \$2,634,644 due from customers for contract billings and is expected to be collected within the next three to six months. At December 31, 2022, accounts receivable, net totaled \$1,622,434. The increase in accounts receivable at March 31, 2023 as compared with December 31, 2022 corresponds to the timing of the collections between periods. At March 31, 2023 and December 31, 2022, allowances for doubtful accounts included in accounts receivable totaled \$9,963. Bad debt expense was \$0 for the three months ended March 31, 2023 and 2022.

Contract assets include unbilled amounts typically resulting from sales under contracts when the cost-to-cost method of revenue recognition is utilized, and revenue recognized exceeds the amount billed to the customer. Contract assets are recorded at the net amount expected to be billed and collected. Contract assets decreased \$249,944 in the first three months of 2023, primarily due to the timing of the billing for the recognition of revenue related to the satisfaction or partial satisfaction of performance obligations.

Contract liabilities include billings in excess of revenue recognized and accrual of certain contract obligations. The Company had no contract liabilities at March 31, 2023 and December 31, 2022, respectively.

Unfulfilled Performance Obligations – As of March 31, 2023, we expect to recognize approximately \$8.2 million of revenue in future periods from unfulfilled performance obligations from existing contracts with customers.

The following table summarizes the expected revenue from our unfulfilled performance obligations as of March 31, 2023:

(\$ in millions)	Expected Revenue from Unfulfilled Performance Obligations by Period		
	Total	2023	2024
Unfulfilled performance obligations:			
Performance obligations	\$ 8.2	\$ 1.2	\$ 7.0
Total unfulfilled performance obligations	<u>\$ 8.2</u>	<u>\$ 1.2</u>	<u>\$ 7.0</u>

If any of our contracts were to be modified or terminated, the expected value of the unfulfilled performance obligations of such contracts would be reduced.

11

NAUTICUS ROBOTICS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

4. Prepaid Expenses

Prepaid expenses consisted of the following:

	March 31, 2023	December 31, 2022
Prepaid material purchases	\$ 3,268,126	\$ 2,454,298
Prepaid insurance	1,760,203	2,392,978
Other prepayments	364,198	199,323
Total other current assets	<u>\$ 5,392,527</u>	<u>\$ 5,046,599</u>

5. Property and Equipment

Property and equipment consisted of the following:

	Useful Life (years)	March 31, 2023	December 31, 2022
Leasehold improvements	5.1	\$ 789,839	\$ 789,839
Property & equipment	5	2,243,434	2,206,004
Technology hardware equipment	5	1,211,893	1,200,504
Total		4,245,166	4,196,347
Less accumulated depreciation		(2,276,524)	(2,003,341)
Construction in progress		14,981,373	12,974,361
Total property and equipment, net		\$ 16,950,015	\$ 15,167,367

6. Accrued Liabilities

Accrued liabilities consisted of the following:

	March 31, 2023	December 31, 2022
Accrued compensation	\$ 532,973	\$ 1,501,736
Accrued professional fees	1,390,130	794,021
Accrued insurance	363,158	590,936
Accrued sales and property taxes	1,294,305	171,660
Accrued interest and penalties	3,958,645	-
Other accrued expenses	75,702	84,624
Total accrued expenses	\$ 7,614,913	\$ 3,142,977

In April 2023, the Company received correspondence from the State of Texas assessing a sale and use tax liability of \$1.2 million. The accrual is recorded under accrued liabilities of the condensed consolidated balance sheet. Further, as described elsewhere herein, subsequent to the filing date of the Original Filing, the Company determined that liquidated damages and related interest amounts should have been recorded under GAAP as an accrued liability and interest expense under other (income) expense, net. The Company's accrual of such estimated amounts at March 31, 2023, includes liquidated damages and interest of approximately \$4.0 million. Please see Note 2 for additional information.

12

NAUTICUS ROBOTICS, INC. NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

7. Notes Payable

Notes payable consisted of the following:

	March 31, 2023	December 31, 2022
Convertible secured debentures	\$ 36,530,320	\$ 36,530,320
Total	36,530,320	36,530,320
Less: debt discount, net	(19,700,337)	(20,608,202)
Less: current portion	-	-
Total notes payable – long-term	\$ 16,829,983	\$ 15,922,118

Upon closing of the Business Combination, we issued Debentures having an aggregate gross principal amount of \$36,530,320 together with 2,922,425 SPA Warrants for proceeds of \$35,800,000 inclusive of a 2% original issue discount. The fair value of the SPA Warrants was estimated to be \$20,949,110 using a Monte Carlo valuation model incorporating future projections of the various potential outcomes and any exercise price adjustments based on future financing events. This amount was recorded as a warrant liability and, together with the original issue discount, was recognized as a debt discount upon issuance totaling \$21,679,716.

The Debentures may be converted at each holder's option at 120% of the principal amount at a conversion price of \$15.00 or 2,922,425 shares of Common Stock. The conversion price may be adjusted downward for certain events including the issuance by the Company of dilutive instruments below the current conversion price. Interest accrues on the outstanding principal amount of the Debentures at 5% per annum, payable quarterly. The Debentures are secured by first priority interests, and liens on, all our assets, and mature on the fourth anniversary of the date of issuance, September 9, 2026.

The SPA Warrants contain similar anti-dilution provisions and are exercisable initially at \$20 per share over their ten-year term at the holders' option (further terms of the SPA Warrants are discussed in Note 12).

The debt discount is being accreted to interest expense over the four-year term of the Debentures. We recorded \$907,865 of debt discount accretion for the three months ended March 31, 2023, and is included as part of interest expense in the condensed consolidated statements of operations. The Debentures effective interest rate is approximately 25.2%.

13

NAUTICUS ROBOTICS, INC. NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

8. Leases

The Company leases its office and manufacturing facility under a 64-month operating lease expiring April 30, 2024. The lease includes rent escalations and chargebacks to the Company for build-out costs. The right-of-use asset and lease liability amounts were determined using an 8% discount rate which was the interest rate related to the leasehold improvement obligation.

The operating lease includes a leasehold improvement obligation which bears interest at 8% and matures on April 30, 2024. The balance of this obligation was \$46,194 and \$56,634 as of March 31, 2023, and December 31, 2022, respectively, and is included in operating lease liabilities in the condensed consolidated balance sheets. Total cash paid pursuant to this lease was \$90,544 and \$90,248 during the three months ended March 31, 2023 and 2022, respectively. The weighted average remaining lease term is 12 months at March 31, 2023.

The Company also leases certain office equipment under an operating lease beginning in August 2022 and expiring in 2025. The right-of-use asset and lease liability amounts were determined using a 7.75% discount rate. Cash paid pursuant to this lease during the three months ended March 31, 2023, was \$2,085 and the weighted average remaining lease term is 28 months.

The weighted average discount rate for all leases was approximately 8% at March 31, 2023.

	Three Months Ended March 31,	
	2023	2022
Fixed lease expense	\$ 102,969	\$ 69,191
Variable lease expense	\$ 8,935	\$ 44,508
Total operating lease expense	\$ 111,904	\$ 113,699

9. Commitments and Contingencies

Litigation – From time to time, we may be subject to litigation and other claims in the normal course of business. No amounts have been accrued in the condensed consolidated financial statements with respect to any matters.

10. Income Taxes

Income tax provisions for interim periods are generally based on an estimated annual effective income tax rate calculated separately from the effect of significant, infrequent, or unusual items related specifically to interim periods. No income tax expense was recognized for the three months ended March 31, 2023 or 2022. The Company has a full valuation allowance against its deferred tax assets as of March 31, 2023, and December 31, 2022, respectively.

11. Equity

Common Stock – A total of 47,281,275 shares of Common Stock were outstanding at March 31, 2023.

Earnout Shares - Following the closing of the Business Combination, former holders of shares of Nauticus Robotics Holdings, Inc. Common Stock (including shares received as a result of the Nauticus Preferred Stock Conversion and the Nauticus Convertible Notes Conversion) are entitled to receive their pro rata share of up to 7,499,993 Earnout Shares which are held in escrow. The Earnout Shares will be released from escrow upon occurrence of certain Triggering Events. At March 31, 2023, the earnout targets have not been achieved and the Earnout Shares remain in escrow.

NAUTICUS ROBOTICS, INC. NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

12. Warrants

Public Warrants – We assumed 8,624,991 Public Warrants in the Business Combination which remained outstanding as of March 31, 2023. Each whole Public Warrant entitles the holder to purchase one share of Common Stock at a price of \$11.50, subject to adjustment. However, no Public Warrants will be exercisable for cash unless we have an effective and current registration statement covering the shares of Common Stock issuable upon exercise of the Public Warrants and a current prospectus relating to such shares of Common Stock. During any period when we shall have failed to maintain an effective registration statement, warrant holders may exercise, subject to the terms of the governing warrant agreement, Public Warrants on a cashless basis pursuant to an available exemption from exemption under the Securities Act. The Public Warrants expire on the fifth anniversary of our completion of the Business Combination, or earlier upon redemption or liquidation. Our Public Warrants are listed on Nasdaq under the symbol “KITTW”.

We may redeem the outstanding Public Warrants, in whole and not in part, at a price of \$0.01 per warrant:

- at any time after the Public Warrants become exercisable,
- upon not less than 30 days' prior written notice of redemption to each warrant holder,
- if, and only if, the reported last sale price of the shares of Common Stock equals or exceeds \$16.50 per share (subject to adjustment for splits, dividends, recapitalizations and other similar events), for any 20 trading days within a 30-day trading period ending on the third business day prior to the notice of redemption to warrant holders, and
- if, and only if, there is a current registration statement in effect with respect to the shares of Common Stock underlying such warrants at the time of redemption and for the entire 30-day trading period referred to above and continuing each day thereafter until the date of redemption.

If we call the Public Warrants for redemption as described above, we have the option to require all holders that wish to exercise warrants to do so on a “cashless basis.”

The exercise price and number of shares of Common Stock issuable on exercise of the Public Warrants may be adjusted in certain circumstances including in the event of a share dividend, extraordinary dividend or our recapitalization, reorganization, merger or consolidation.

The Public Warrants, which are accounted for as liabilities in our condensed consolidated balance sheets, were valued as of March 31, 2023, at \$1,956,891 based on their

publicly-traded price. The change in value of the Public Warrants during the three months ended March 31, 2023, totaled \$(319,247) and was reported with other (income) expense in our condensed consolidated statements of operations.

Private Warrants – We assumed 7,175,000 Private Warrants in the Business Combination which remained outstanding as of March 31, 2023. Each whole Private Warrant is exercisable for one share of Common Stock at an exercise price of \$11.50 and are identical in all material respects to the Public Warrants except that such Private Warrants are exercisable for cash (even if a registration statement covering the shares of Common Stock issuable upon exercise of such warrants is not effective) or on a cashless basis, at the holder’s option, and will not be redeemable by us, in each case so long as they are still held by the initial purchasers or their affiliates. The Private Warrants purchased by CleanTech Investments, LLC are not exercisable after July 14, 2026, as long as Chardan Capital Markets, LLC or any of its related persons beneficially own these Private Warrants.

The Private Warrants, which are accounted for as liabilities in our condensed consolidated balance sheets, were valued as of March 31, 2023, at \$1,653,223 based on their publicly-traded price. The fair value of the Private Warrants was estimated using a Black-Scholes option pricing model using the following assumptions: stock price of \$2.98, no assumed dividends, a risk-free rate of 3.66% and implied volatility of 44.6%. The change in value of the Private Warrants during the three months ended March 31, 2023, totaled \$(281,362) and was reported with other (income) expense in our condensed consolidated statements of operations.

SPA Warrants – Concurrent with the Closing and pursuant to the Securities Purchase Agreement, we issued 2,922,425 SPA Warrants. Each whole SPA Warrant is exercisable for one share of Common Stock at a price of \$20.00. If a registration statement covering the shares of Common Stock issuable upon exercise of the SPA Warrants is not effective upon the registered holder’s election to exercise, the holder may, until such time as there is an effective registration statement and during any period when we shall have failed to maintain an effective registration statement, exercise their SPA Warrants on a cashless basis pursuant to an available exemption from exemption under the Securities Act. The SPA Warrants expire ten years after their initial issuance date, or earlier upon redemption or liquidation.

NAUTICUS ROBOTICS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

The SPA Warrants, which are accounted for as liabilities in our condensed consolidated balance sheets, were valued as of March 31, 2023, at \$31,315,131 and was estimated using a Monte Carlo valuation model incorporating future projections of the various potential outcomes and any exercise price adjustments based on future financing events. The change in value of the SPA Warrants during the three months ended March 31, 2023, totaled \$2,837,513 and was reported with other (income) expense in our condensed consolidated statements of operations.

The exercise price of the SPA Warrants is subject to (i) customary anti-dilution adjustments; and (ii) in the case of a subsequent equity sale at a per share price below the exercise price, the exercise price of the associated warrant will be adjusted to such lower price, and the number of shares underlying the warrant will increase proportionately. In the event of a rights offering or dividend, the warrant holder will be treated as though the shares underlying the warrants, he/she holds were outstanding. These warrants can be exercised on a cashless basis.

13. Stock-Based Compensation

On September 6, 2022, shareholders approved our 2022 Omnibus Incentive Plan (the “Omnibus Incentive Plan”) and on September 9, 2022, our board of directors ratified the Omnibus Incentive Plan. The Omnibus Incentive Plan provides for the grant of options, stock appreciation rights, restricted stock units (“RSUs”), restricted stock and other stock-based awards, any of which may be performance-based, and for incentive bonuses, which may be paid in cash, Common Stock or a combination thereof. At March 31, 2023, 7,950,951 equity units were available for future issuance under the Omnibus Incentive Plan.

At the Closing Date of the Business Combination, Nauticus Robotics Holdings, Inc. had 279,464 options outstanding for the purchase of its common stock. Such options were originally issued under the 2015 Equity Incentive Plan (the “2015 Plan”) historically maintained by Nauticus Robotics Holdings, Inc. The outstanding options were converted into 3,970,266 options to purchase shares of our Common Stock. Outstanding options vest assuming continuous service to the Company with 25% of the options vesting one year after grant and the balance vesting in a series of 36 successive equal monthly installments measured from the first anniversary of grant. During the vesting period, holders have no rights of a stockholder with respect to the shares of Common Stock subject to an option and the options may not be sold, assigned, transferred, pledged, or otherwise encumbered. Unvested options are forfeited upon termination of employment. At March 31, 2023, 3,472,129 options (originally issued under the 2015 Plan) remained available to purchase shares of our common stock.

Compensation expense for stock option grants is recognized based on the fair value at the date of grant using the Black-Scholes option pricing model.

Stock-based compensation expense, which relates to options granted under the Omnibus Incentive Plan, totaled \$139,912 and \$206,059 for the first three months of 2023 and 2022, respectively, and was recorded in general and administrative expense. As of March 31, 2023, there was \$1,282,580 of total unrecognized compensation cost related to options to be recognized over a remaining weighted average period of 2.42 years.

The following table summarizes options outstanding, as well as activity for the periods presented (prior year amounts have been converted using the conversion ratio of 14.2069 applied in the Business Combination):

	<u>Options</u>	<u>Weighted Average Grant Date Fair Value</u>	<u>Weighted Average Exercise Price</u>	<u>Aggregate Intrinsic Value</u>
Outstanding as of December 31, 2021	3,947,359	\$ 0.91	\$ 1.74	\$ 2,992,895
Granted	106,552	\$ 1.30	\$ 2.49	
Cancelled	(75,297)	\$ 1.28	\$ 2.47	
Outstanding as of March 31, 2022	<u>3,978,614</u>	<u>\$ 0.89</u>	<u>\$ 1.84</u>	<u>\$ 2,607,385</u>
Outstanding as of December 31, 2022	3,503,601	\$ 1.87	\$ 1.87	\$ 6,554,541
Exercised	(30,504)	\$ 0.80	\$ 1.94	
Cancelled	(968)	\$ 0.98	\$ 1.94	
Outstanding as of March 31, 2023	<u>3,472,129</u>	<u>\$ 0.89</u>	<u>\$ 1.87</u>	<u>\$ 3,837,080</u>

NAUTICUS ROBOTICS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

The remaining weighted average contractual life of exercisable options at March 31, 2023 was 5.86 years.

The total intrinsic value of all options exercised during the three months ended March 31, 2023 and 2022 was \$54,687 and \$0, respectively. The intrinsic value of all options outstanding at March 31, 2023 and 2022 was \$3,837,080 and \$2,607,385, respectively. The intrinsic value of all exercisable options at March 31, 2023 and 2022 was \$2,778,152 and \$1,735,720, respectively.

Proceeds from exercises of options issued under the 2015 Plan for the first three months ended March 31, 2023 and 2022 were \$59,178 and \$0, respectively. The tax benefit realized from stock-based compensation was \$11,859 and \$0 for the first three months ended March 31, 2023 and 2022, respectively. Realization of this amount is dependent on the generation of future taxable income.

Incentive Plans - During 2022, RSUs were granted to certain of our key executives, employees, and non-employee directors. Each RSU is a notional amount that represents the right to receive one share of Common Stock of the Company if and when the RSU vests. RSUs were issued to the following recipients and vest as follows:

Employee RSU grants are time-based and vest equally over a three-year period on December 31 of 2023, 2024, and 2025, conditional upon continued employment.

Non-employee director RSU grants are time-based and vest fully on the earlier of the one-year anniversary of the grant date or the next Annual Meeting of Stockholders of the Company if a grantee is not on the election ballot, conditional upon continued service as a director.

Executive RSU grants issued as executive sign-on bonuses are time-based and vest 50% on the one-year anniversary of the new hire date and 50% on the two-year anniversary of the new-hire date.

In addition, during 2022, performance-based restricted stock units ("PRsUs") were granted to senior executives. Each PRsU is a notional amount that represents the right to receive one share of Common Stock if and when the PRsU vests. PRsU participants may earn between 0% and 150% of the PRsUs, subject to attainment of certain performance conditions which are based upon the Company's 2022 revenues. Earned PRsUs will vest 50% on December 31, 2023, and 50% on December 31, 2024.

The senior executive management team met a performance condition, whereby they earned and received PRsUs that will vest at least 50% of the target achieved according to the award agreements. The number of the PRsUs granted was 1,214,580 with 51% vesting for a total amount of PRsUs awarded is 619,436.

The Compensation Committee has a policy that the Company will not provide U.S. federal income tax gross-up payments to any of its directors or executive officers in connection with future awards of restricted stock or stock units.

The following is a summary of our restricted and performance stock unit activity for the first three months of 2023:

	Shares	Weighted Average Grant Date Fair Value	Aggregate Intrinsic Value
Outstanding as of December 31, 2022	3,134,677	\$ 4.73	
Awarded	48,274	\$ 3.48	
Forfeited	(13,682)	\$ 4.73	
Outstanding as of March 31, 2023	<u>3,169,269</u>	<u>\$ 4.71</u>	<u>\$ 9,428,576</u>

NAUTICUS ROBOTICS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

The remaining weighted average contractual life of restricted stock granted at March 31, 2023 was 1.32 years.

The RSUs granted in 2022 do not have voting rights unless a RSU has vested and the share of common stock underlying it has been distributed to the participant. Each grantee of shares of restricted common stock is deemed to be the record owner of those shares during the restricted period, with the right to receive any dividends on those shares.

The PRsUs granted in 2022 carry no dividend rights but have voting rights upon the vesting of a PRsU and the share of common stock underlying it has been distributed to the PRsU participant.

Grants of restricted stock units are valued at their estimated fair values as of their respective grant dates. The grants in 2022 were subject only to vesting conditioned on continued employment or service as a nonemployee director; therefore, these grants were valued at the grant date fair market value using the closing price of our stock on the Nasdaq Stock Market.

Stock-based compensation expense under the restricted stock plans for the first three months of 2023 was \$42,914 for PRsUs and \$1,032,037 for RSUs and was recorded in general and administrative expense. As of March 31, 2023, we had \$2,028,739 of future expense related to PRsUs to be recognized and \$7,180,050 of future expense related to RSUs over a weighted average remaining life of 1.8 years. Total stock-based compensation expense for the first three months of 2023 including options, PRsUs, and RSUs totaled \$1,214,863.

14. Employee Benefit Plan

Nauticus offers a 401(k) plan which permits eligible employees to contribute portions of their compensation to an investment trust. The Company makes contributions to the plan totaling 3% of employees' gross salaries and such contributions vest immediately. The 401(k) plan provides several investment options, for which the employee has sole investment discretion. The Company's cost for the 401(k) plan was \$117,342 and \$78,190 for the three months ended March 31, 2023 and 2022, respectively.

15. Related Party Transactions

PIPE Investment and Securities Purchase Agreement – Concurrent with the closing of the Business Combination, the Company received (i) \$2,500,000 from related party Material Impact Fund II, L.P. as their contribution to the PIPE Investment, (ii) \$7,500,000 from related party Schlumberger Technology Corporation as their contribution to the

PIPE Investment, (iii) \$7,500,000 from related party Transocean Ltd. as their contribution to the PIPE Investment, and (iv) \$5,102,000 from related party Material Impact Fund II, L.P. pursuant to the Securities Purchase Agreement. Material Impact Fund II, L.P. currently holds \$5,102,000 of the outstanding Debentures bearing 5% interest, payable quarterly, maturing September 9, 2026, as well as holding outstanding Common Stock of the Company. During the three months ended March 31, 2023, Material Impact Fund II, L.P. received \$65,192 in interest payments on the Debentures from the Company.

16. Earnings (Loss) Per Share

Following is the computation of earnings (loss) per basic and diluted share:

	Three months ended March 31,	
	2023 (As Restated)	2022
Numerator:		
Net loss	\$ (14,138,665)	\$ (3,504,002)
Net loss attributable to common stockholders	\$ (14,138,665)	\$ (3,504,002)
Denominator:		
Weighted average shares used to compute basic and diluted EPS	39,765,361	9,669,217
Basic and diluted earnings (loss) per share	\$ (0.36)	\$ (0.36)
<i>Anti-dilutive securities excluded from shares outstanding:</i>		
Stock options	3,472,129	4,005,717
Restricted and performance stock units	3,169,269	-
Warrants	18,722,425	-
Earnout shares	7,499,993	-
Convertible debt	-	5,299,546
Debentures	2,922,425	-
Total	35,786,241	9,305,263

NAUTICUS ROBOTICS, INC. NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

17. Fair Value Measurements

The Company measures and reports certain financial and non-financial assets and liabilities on a fair value basis. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The three levels related to fair value measurements are as follows:

Level 1 – Observable inputs such as quoted prices in active markets for identical assets or liabilities.

Level 2 – Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active or other inputs that are observable or can be corroborated by observable market data.

Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. This includes certain pricing models, discounted cash flow methodologies, and similar techniques that use significant unobservable inputs.

The estimated fair values of accounts receivable, contract assets, accounts payable, accrued expenses, and indebtedness with unrelated parties approximate their carrying amounts due to the relatively short maturity or time to maturity of these instruments. Notes payable with related parties may not be arms-length transactions and therefore, may not reflect fair value. The estimated fair value of the Debentures approximates their carrying amount due to their recent issuance.

The Company's non-financial assets measured at fair value on a non-recurring basis include Earnout Shares. These are considered Level 3 measurements as they involve significant unobservable inputs.

The Company's non-financial assets measured at fair value on a recurring basis include stock-based compensation awards, SPA Warrants, and Private Warrants. These are considered Level 3 measurements as they involve significant unobservable inputs.

In accordance with the fair value hierarchy described above, the following tables show the fair value of the Company's financial liabilities that are required to be measured at fair value on a recurring basis and the related activity for the periods presented:

	Fair Value as of March 31, 2023			
	Carrying Value	Level 1	Level 2	Level 3
Financial liabilities:				
Warrant liability - Public Warrants	\$ 1,956,891	\$ 1,956,891	\$ -	\$ -
Warrant liability - Private Warrants	1,653,223	-	-	1,653,223
Warrant liability - SPA Warrants	31,315,131	-	-	31,315,131
Total	\$ 34,925,245	\$ 1,956,891	\$ -	\$ 32,968,354

The following table sets forth a summary of the changes in fair value of the Company's financial liabilities:

	Warrant Liability
Balance, December 31, 2022	\$ 32,688,341
Change in fair value of warrant liabilities	2,236,904
Balance, March 31, 2023	\$ 34,925,245

18. Subsequent Events

In preparing the condensed consolidated financial statements, the Company evaluated all subsequent events and transactions for potential recognition or disclosure up to the date

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following Management's Discussion and Analysis of Financial Condition and Results of Operations should be read in conjunction with the unaudited condensed consolidated financial statements and the notes thereto included in Part I, Item 1, "Financial Statements" of this Quarterly Report on Form 10-Q/A.

Explanatory Note

On the Closing Date, we consummated the Business Combination with Merger Sub, and Nauticus Robotics Holdings, Inc. Pursuant to the terms of the Merger Agreement, a business combination between CLAQ and Nauticus Robotics Holdings was effected through the merger of Merger Sub with and into Nauticus Robotics Holdings, with Nauticus Robotics Holdings surviving the merger as a wholly owned subsidiary of CLAQ. On the Closing Date, CLAQ was renamed "Nauticus Robotics, Inc." and the Nauticus Robotics Holdings' predecessor was renamed "Nauticus Robotics Holdings, Inc."

The Business Combination was accounted for as a reverse recapitalization under generally accepted accounting principles in the United States ("GAAP"). Nauticus Robotics Holdings, Inc. was determined to be the accounting acquirer and CLAQ was treated as the acquired company for financial reporting purposes. Accordingly, the financial statements of Nauticus represent a continuation of the financial statements of Nauticus Robotics Holdings, Inc.

Overview

Nauticus Robotics, Inc. (the "Company," "our," "us," or "we") is a developer of ocean robots, cloud software, and services delivered to the ocean industry. We were initially incorporated as CleanTech Acquisition Corp. ("CLAQ" or "CleanTech") under the laws of the State of Delaware on June 18, 2020. The Company's principal corporate offices are located in Webster, Texas. Our services provide customers with the necessary data collection, analytics, and subsea manipulation capabilities to support and maintain assets while reducing their operational footprint, operating cost, and greenhouse gas emissions, as well as to improve offshore health, safety, and environmental exposure.

Our subsea robotic product, Aquanaut, is a vehicle that begins its mission in a hydrodynamically efficient configuration which enables efficient transit to the worksite (i.e., operating as an autonomous underwater vehicle, or "AUV"). During transit (operating in survey mode), Aquanaut's sensor suite provides capability to observe and inspect subsea assets or other subsea features. Once it arrives at the worksite, Aquanaut transforms its hull configuration to expose two work-class-capable, electric manipulators that can perform dexterous tasks with (supervised), or without (autonomous), direct human involvement. In this intervention mode, the vehicle has capabilities similar to a conventional remotely operated vehicle ("ROV"). The ability to operate in both AUV and ROV modes is a quality unique to our subsea robot and is protected under a U.S. patent. To take advantage of these special configuration qualities, we have developed underwater acoustic communication technology, called Wavelink, our over-the-horizon remote connectivity solution, which removes the need for long umbilicals to connect the robot with topside vessels. Eliminating these umbilicals and communicating with the robot through acoustic or other latent, laser, or RF methods reduces much of the system infrastructure that is currently required for ROV servicing operations and is core to our value proposition.

The component technologies that comprise the Aquanaut are also marketable to the existing worldwide ROV fleet. Aquanaut's perception and machine-learning software technologies combined with its perception and electric manipulators can be retrofitted on existing ROV platforms to improve their ability to perform subsea maintenance activities. The Argonaut, a derivative product of the Aquanaut, is aligned to non-industrial, government applications. This vehicle embodies nearly all of the Aquanaut's core technologies but varies in form and function necessary to perform specialized missions.

Our key technologies are autonomous platforms, acoustic communications networks, electric manipulators, AI-based perception and control software, and high-definition workspace sensors. Implementation of these technologies enables operators to reduce costs relative to conventional methods.

Basis of Presentation – The accompanying Condensed Consolidated Financial Statements have been prepared by Nauticus Robotics Inc. without audit pursuant to the rules and regulations of the U.S. Securities and Exchange Commission ("SEC") and, in the opinion of management, include all adjustments (consisting of normal, recurring adjustments, unless otherwise disclosed) necessary for a fair statement of the condensed consolidated results of operations, financial position, cash flows, and changes in stockholders' equity (deficit) for each period presented. All intercompany balances and transactions have been eliminated in preparation of these condensed consolidated financial statements. The consolidated results for the interim periods are not necessarily indicative of results to be expected for the full year. The 2022 year-end Consolidated Balance Sheet was derived from audited financial statements but does not include all disclosures required by GAAP. These financial statements should be read in conjunction with Nauticus Robotics Inc. Form 10-K for the year ended December 31, 2022.

Impact of COVID-19 Pandemic on Business – The global spread of COVID-19, created significant market volatility and economic uncertainty and disruption during 2021 and 2022. The Company was adversely affected by the deterioration and increased uncertainty in the macroeconomic outlook as a result of the impact of COVID-19. We have experienced and may continue to experience disruptions in our supply chain, due in part to the global impact of the COVID-19 pandemic. Depending upon the duration of the ongoing COVID-19 pandemic related business interruptions, our customers, suppliers, manufacturers, and partners may suspend or delay their engagements with us, which could result in a material adverse effect on our financial condition and ability to meet current timelines. In addition, the COVID-19 pandemic has affected and may continue to affect our ability to recruit skilled employees to join our team. The conditions caused by the COVID-19 pandemic have adversely affected and may continue to adversely affect, among other things, demand for our products and the ability to test and assess our robotic systems with potential customers any of which adversely affects our business, results of operations, and financial condition. The duration and extent of the COVID-19 pandemic's impacts cannot be accurately predicted at this time, and the ultimate direct and indirect impacts on our business, results of operations, and financial condition will depend on future developments that are highly uncertain

Liquidity – The Company has had recurring losses and negative cash flows since its inception. The Company continues to develop its principal products and conduct research and development activities. Supply chain disruptions instigated production delays and have continued to impact the Company's ability to deploy its products and realize material RaaS and product sale revenues. Currently, the Company does not generate sufficient revenue to cover operating expenses, working capital, and capital expenditures. We do not have any commitments for equity funding at this time, and additional funding may not be available to us on favorable terms, if at all. We are considering reducing discretionary spending and other cost-cutting measures, which may be implemented in the near-term to the extent additional financing is not raised. The Company has not yet implemented material cost-cutting measures but will assess as needed to meet capital requirements for our business operations. There are no assurances that we can raise sufficient additional capital from external sources or implement material cost-cutting measures. The inability to successfully effectuate either measure could force us to curtail or discontinue our operations. However, utilizing cost control measures, cash on hand, revenue from operations, and potential future equity and debt funding, the Company anticipates having sufficient funds to meet its obligations for at least one year from the issuance date of this report.

Results of Operations

Three Months Ended March 31, 2023, Compared to Three Months Ended March 31, 2022

The following table sets forth summarized condensed consolidated financial information:

	Three months ended		Change	
	March 31,		\$	%
	2023	2022		
	(As Restated)			
Revenue				
Service	\$ 2,820,780	\$ 2,235,965	\$ 584,815	26%
Total revenue	2,820,780	2,235,965	584,815	26%
Costs and Expenses				
Cost of revenue	2,932,267	1,899,161	1,033,106	54%
Depreciation	273,099	111,319	161,780	145%
Research and development	226,967	1,267,412	(1,040,445)	-82%

Interest expense, net	4,935,067	801,974	4,133,093	515%
Net loss	\$ (14,138,665)	\$ (3,504,002)	\$ (10,634,663)	304%

Revenue. For the three months ended March 31, 2023, net revenue increased by \$0.6 million, or 26%, to \$2.8 million for 2023, as compared to \$2.2 million for 2022. The increase in revenue is primarily attributable to one new contract and the continuation and increased performance on existing service contracts from the prior year.

Cost of revenue. For the three months ended March 31, 2023, cost of revenue increased by \$1.0 million, or 54%, to \$2.9 million for 2023, as compared to \$1.9 million for 2022. The increase in cost of revenue is primarily attributable to cost escalation of several service contracts and increased operational headcount compared to the prior year. Also included in cost of revenue are retention bonuses of approximately \$0.3 million for our continued successful development of our core product program.

Depreciation. For the three months ended March 31, 2023, depreciation increased by \$162 thousand, or 145%, to \$273 thousand for 2023, as compared to \$111 thousand for 2022 primarily due to increased investment in operational assets.

Research and development. For the three months ended March 31, 2023, total research and development expenses decreased by \$1.0 million, or 82%, to \$0.2 million for 2023, as compared to \$1.3 million for 2022. The decrease was due primarily to the Company achieving technological feasibility on both hardware and software developments and focusing on bringing its products to market.

General and administrative. For the three months ended March 31, 2023, total general and administrative expenses increased by \$3.6 million, or 217%, to \$5.2 million for 2023, as compared to \$1.6 million for 2022. General and administrative expenses increased primarily due to an increase in company headcount, sales and marketing expense, professional fees, and other costs due to the continued growth of the Company.

Other expense, net. For the three months ended March 31, 2023, other expense, net increased by \$1.1 million to \$1.2 million for 2023 as compared to \$0 of other expense, net in 2022. The increase was due primarily from a state sales tax assessment of \$1.2 million that the Company plans to vigorously mitigate, by contesting the preliminary estimate from the governmental entity, Texas Comptroller of Public Accounts.

Change in fair value of warrant liabilities. For the three months ended March 31, 2023, change in fair value of warrant liabilities increased by \$2.2 million to \$2.2 million of other (income) expense in 2023 as compared to \$0 in 2022. This increase was due to the change in mark-to-market value of the SPA warrants and public and private warrants incurred and assumed by the Company in the Business Combination.

Interest expense, net. For the three months ended March 31, 2023, interest expense, net increased by \$4.1 million to \$4.9 million for 2023 as compared to \$0.8 million in 2022. Interest expense, net increased due to amortization of debt discount of \$0.9 million associated with the Debentures and approximately \$4.0 million associated with liquidated damages and interest arising out of the RRA. Please see Note 2 to the condensed consolidated financial statements included in this Amendment for additional information. Cash paid for interest increased by \$0.2 million to \$0.5 million for the three months ended March 31, 2023 as compared to \$0.3 million in 2022 due to interest paid on the Debentures.

Liquidity and Capital Resources

As of March 31, 2023, we had \$12,478,433 of cash and cash equivalents. The cash equivalents consist of money market funds.

Significant sources and uses of cash during the first three months of 2023.

Sources of cash:

- We received net proceeds of \$59 thousand from the exercise of stock options, representing the strike price of such options.

Uses of cash:

- Cash used in operating activities was \$8.8 million, which included \$0.6 million invested in working capital.
- Cash used in investing activities for capital expenditures was \$1.5 million.

Future sources and uses of cash. Our capital requirements will depend on many factors, including sales volumes, the timing and extent of spending to support R&D efforts, investments in technology, the expansion of sales and marketing activities, and market adoption of new and enhanced products and features. To date, our principal sources of liquidity have been proceeds received from the issuance of debt and equity funding and cash flows from our operations.

We anticipate needing additional capital to continue expanding our business operations, which may include acquisitions and capital expenditures. Currently, the Company does not generate sufficient revenue to cover operating expenses, working capital, and capital expenditures. We have historically financed our operations through equity and debt financing. We do not have any commitments for equity funding at this time, and additional funding may not be available to us on favorable terms, if at all. We are considering reducing discretionary spending and other cost-cutting measures, which may be implemented in the near-term to the extent additional financing is not raised. The Company has not yet implemented material cost-cutting measures but will assess as needed to meet capital requirements for our business operations. There are no assurances that we can raise sufficient additional capital from external sources or implement material cost-cutting measures. The inability to successfully effectuate either measure could force us to curtail or discontinue our operations. However, utilizing cost control measures, cash on hand, revenue from operations, and potential future equity and debt funding, the Company anticipates having sufficient funds to meet its obligations for at least one year from the issuance date of this Form 10-Q/A.

Indebtedness. The Company's indebtedness at March 31, 2023 is presented in Item I, "Financial Statements – Note 7 – Notes Payable" and our lease obligations are presented in Item I, "Financial Statements – Note 8 – Leases."

Off-Balance Sheet Arrangements

As of March 31, 2023, we had no material off-balance sheet arrangements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Not required for smaller reporting companies.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of disclosure controls and procedures. Our disclosure controls and procedures are designed to ensure that information we are required to disclose in reports that we file or submit under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in SEC rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

Our management, with the participation and under the supervision of our Chief Executive Officer and our Chief Financial Officer, has re-evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) as of the end of the period covered by this Amendment No. 1 on Form 10-Q/A (this "Amendment"). Based on such re-evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of March 31, 2023, as a result of the continuation of the previously disclosed material weakness discussed below, our disclosure controls and procedures were not effective. In light of this fact, our management, including our Chief Executive Officer and Chief Financial Officer, has performed additional analyses, reconciliations, and other post-closing procedures in order to conclude that, notwithstanding such material weakness, the unaudited condensed consolidated financial statements included in this Amendment fairly present, in all material respects, our financial position, results of operations and cash flows for the periods presented in conformity with GAAP.

A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of our annual or interim financial statements will not be prevented or detected on a timely basis.

Continuation of material weakness as of March 2023 (initially identified as of September 2022). We previously identified a material weakness in controls over the accounting for complex warrant issuances and the classification of certain issued warrants. This material weakness resulted in the failure to prevent material errors in accounting for the warrants as equity classification when the warrants should have been classified as liabilities, and marked to market each reporting period, resulting in the restatement of our financial statements as of and for the nine months ended September 30, 2022.

Further, as detailed elsewhere herein, this Amendment, among other things, corrects an error associated with the untimely recognition of an accrued liability and expense arising out of the RRA. This error resulted from the continuation of the abovementioned material weakness, specifically in relation to the accounting for complex transactions and contracts of the Company. As a result of such continued material weakness, the Company's condensed consolidated financial statements have been restated to reflect the corrections necessary to address such error.

Management is working to remediate the material weakness described above and to enhance our overall control environment. Our remediation plan includes enhancing our contract review process, particularly in the context of complex agreements and transactions, as well as internal communications in connection therewith, in addition to continuing our engagement of third-party specialists to assist with accounting, valuation, and financial reporting functions in relation to significant contracts, agreements and complex transactions. Our ongoing remediation activities are subject to continued management review supported by ongoing design and evaluation of our internal control over financial reporting framework. The Audit Committee of our board of directors is monitoring, and receives regular reports on the progress of, management's remediation efforts. We will not consider the material weakness remediated until our enhanced controls are operational for a sufficient period of time and evaluated, enabling management to conclude that the enhanced controls are operating effectively.

Previously identified material weakness. In 2021, we identified a material weakness in our internal control over financial reporting, as defined in the standards established by the Sarbanes-Oxley Act of 2002. This material weakness related to a lack of qualified accounting and financial reporting personnel with an appropriate level of experience and inadequate procedures for the accounting close process including obtaining information supporting significant accounting estimates and judgments affecting the financial statements on a timely basis. As a result, our management concluded that a material weakness existed in its internal control over financial reporting.

Through the three months ended March 31, 2023, we continued to implement remediation initiatives in response to the previously identified material weakness, including, but not limited to, hiring additional experienced accounting and financial reporting personnel, as well as designing and implementing additional controls over financial reporting, including those designed to strengthen our segregation of duties and review processes related to accounting and financial statement presentation and disclosures. While we believe that these efforts have improved and will continue to improve our internal control over financial reporting, remediation of the material weakness will require validation and evaluation of the design and operating effectiveness of internal controls over a sustained period of financial reporting cycles. Our remediation activities are ongoing and are subject to continued management review supported by ongoing design and evaluation of our framework of internal controls over financial reporting.

Changes in internal control over financial reporting. During the first quarter of 2023, we implemented changes to our internal control over financial reporting regarding our

close procedures including adding qualified staffing to address segregation of duties concerns. There were no other changes in our internal control over financial reporting identified in connection with the evaluation required by Rules 13a-15(d) and 15d-15(d) of the Exchange Act that occurred during the period covered by this Form 10-Q/A that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Inherent limitation on the effectiveness of internal control. The effectiveness of any system of internal control over financial reporting, including ours, is subject to inherent limitations, including the exercise of judgment in designing, implementing, operating, and evaluating the controls and procedures, and the inability to eliminate misconduct completely. Accordingly, in designing and evaluating the disclosure controls and procedures, management recognizes that any system of internal control over financial reporting, including ours, no matter how well designed and operated, can only provide reasonable, not absolute assurance of achieving the desired control objectives. In addition, the design of disclosure controls and procedures must reflect the fact that there are resource constraints, and that management is required to apply its judgment in evaluating the benefits of possible controls and procedures relative to their costs. Moreover, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate. We intend to continue to monitor and upgrade our internal controls as necessary or appropriate for our business but cannot assure you that such improvements will be sufficient to provide us with effective internal control over financial reporting.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

From time to time, we may be subject to litigation and other claims in the normal course of business. No amounts have been accrued in the condensed consolidated financial statements with respect to any matters.

ITEM 1A. RISK FACTORS

There have been no material changes in our Risk Factors during the three months ended March 31, 2023, other than as described below. Information regarding our Risk Factors is more fully described in “Item 1A. Risk Factors” of our Annual Report on Form 10-K for the year ended December 31, 2022, filed with the SEC.

We previously identified a material weakness in our internal control over financial reporting that has since been remediated and downgraded to a significant deficiency. We have identified a new material weakness affecting the classification of the SPA Warrants, which were previously recorded as equity. Further, this continued material weakness, specifically in relation to the accounting for complex transactions and contracts of the Company, is associated with the untimely recognition of an accrued liability and expense arising out of the RRA. This material weakness could continue to adversely affect our ability to report our results of operations and financial condition accurately and in a timely manner.

Our management is responsible for establishing and maintaining adequate internal control over financial reporting designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with GAAP. Our management is likewise required, on a quarterly basis, to evaluate the effectiveness of our internal controls.

In 2021, we identified a material weakness in our internal control over financial reporting, such that there was a reasonable possibility that a material misstatement of our annual or interim financial statements will not be prevented or detected on a timely basis. To address this material weakness, we engaged a technical accounting and financial reporting consulting firm to assist the company with (i) our financial accounting close, (ii) the application of technical accounting literature, (iii) the preparation of our financial statements, and (iv) the independent audit of our financial statements. We hired additional personnel in the third and fourth quarters of 2022 to supplement our accounting and financial reporting staff to remediate this weakness in our internal controls. We are also strengthening internal controls over financial reporting by implementing an enterprise resource planning system (“ERP”), a software used to automate business processes, containing workflows and business rules that ensure process is followed by approved policies, roles, and procedures. We expect to complete the final phases of the ERP implementation by the end of the fourth quarter of 2023. The resulting fully integrated ERP system will enhance financial reporting and transactional interfaces.

As a result of the Company’s efforts, the previously identified material weakness, described above, has since been remediated and downgraded to a significant deficiency. In addition to the steps already taken, we plan to continue to devote significant effort and resources to the remediation and improvement of our internal control over financial reporting. While we have processes to identify and appropriately apply applicable accounting requirements, we plan to enhance these processes to better evaluate, research and understand the complexities of proposed accounting standards that apply to our consolidated financial statements. These include providing enhanced access to accounting literature, research materials and documents, increasing communication among our personnel, hiring additional technical accounting resources, and engaging third-party professionals with whom we will consult regarding complex accounting standards. The elements of our continued remediation plan can only be accomplished over time, and we can offer no assurances that these initiatives will ultimately have all or some of the intended effects.

Any failure to maintain such internal control could adversely impact our ability to report our financial position and results of operations on a timely and accurate basis. If our financial statements are not accurate, investors may not have a complete understanding of our operations. Likewise, if our financial statements are not filed on a timely basis, we could be subject to sanctions or investigations by the stock exchange on which our Common Stock is listed, the SEC or other regulatory authorities. In either case, that could result in a material adverse effect on our business. Ineffective internal controls could also cause investors to lose confidence in our reported financial information, which could have a negative effect on the trading of our Common Stock.

As identified in our amended quarterly report on Form 10-Q/A for the period ended September 30, 2022, we identified a material weakness affecting the classification of the SPA Warrants, which were previously recorded as equity. Further, this continued material weakness, specifically in relation to the accounting for complex transactions and contracts of the Company, is associated with the untimely recognition of an accrued liability and expense arising out of the RRA. As a result of this material weakness, our Chief Executive Officer and Chief Financial Officer concluded that, as of September 30, 2022, and March 31, 2023, our disclosure controls and procedures were not effective. See “Controls and Procedures” for more information.

We expect to incur ongoing significant costs to meet the corporate governance provisions of the Sarbanes-Oxley Act of 2002, related regulations of the SEC, and the requirements of NASDAQ, with which we were not required to comply as a private company. Complying with these statutes, regulations, and requirements will occupy a significant amount of our Board’s and management’s time and will significantly increase costs and expenses.

We can give no assurances that going forward, the measures we plan to take in the future will remediate any additional material weaknesses or restatements of financial results will not arise in the future due to failure to implement and maintain adequate control over financial reporting or circumvention of these controls. In addition, even if we are successful in strengthening our controls and procedures, in the future those controls and procedures may not be adequate to prevent or identify irregularities or errors or to facilitate the fair preparation and presentation of our consolidated financial statements.

For more information, please see the risk factor, included in our Annual Report on Form 10-K for the year ended December 31, 2022, entitled *If we fail to maintain an effective system of internal controls, our ability to produce timely and accurate financial statements or comply with applicable regulations could be adversely affected.*

We have restated our prior unaudited consolidated financial statements, which may lead to additional risks and uncertainties, including loss of investor confidence and negative impacts on our stock price.

We previously restated our unaudited condensed consolidated financial statements as of and for the quarterly period ended September 30, 2022 (the “2022 Restated Period”). In consultation with the Audit Committee of our board of directors (the “Audit Committee”) and our auditors, we made the determination to restate such financial statements following the identification of errors related to the classification of certain warrants that were previously recorded as equity. Due to such errors, the Company’s management and the Audit Committee concluded that our previously issued financial statements for the 2022 Restated Period should no longer be relied upon. In addition, our management, with the participation and under the supervision of our Chief Executive Officer and Chief Financial Officer, performed a re-evaluation of the effectiveness of our disclosure controls and procedures as of the end of the 2022 Restated Period. Based on such re-evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as a result of the identified material weakness, our disclosure controls and procedures were ineffective as of the end of the 2022 Restated Period. Our Quarterly Report on Form 10-Q for the period ended September 30, 2022 has been amended by an Amendment No. 1 on Form 10-Q/A to, among other things, reflect the restatement of our financial statements for the Restated 2022 Period.

Further, we have restated our unaudited condensed consolidated financial statements as of and for the quarterly period ended March 30, 2023 (the “2023 Restated Period”). In consultation with the Audit Committee and our auditors, we made the determination to restate such financial statements following the identification of an error associated with a failure to timely recognize an accrued liability and expense arising out of the RRA. Due to such error, the Company’s management and the Audit Committee concluded that our previously issued financial statements for the 2023 Restated Period should no longer be relied upon. In addition, our management, with the participation and under the supervision of our Chief Executive Officer and Chief Financial Officer, performed a re-evaluation of the effectiveness of our disclosure controls and procedures as of the end of the 2023 Restated Period. Based on such re-evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as a result of the continued material weakness, our disclosure controls and procedures were ineffective as of the end of the 2023 Restated Period. This Amendment, among other things, reflects the restatement of our financial statements for the 2023 Restated Period.

As a result of these events, we have become subject to a number of additional costs and risks, including unanticipated costs for accounting and legal fees in connection with or related to the restatement and the remediation of our ineffective disclosure controls and procedures and material weakness in internal control over financial reporting. In addition, the attention of our management team has been diverted by these efforts. We could be subject to additional stockholder, governmental, or other actions in connection with the restatement or other matters. Any such proceedings will, regardless of the outcome, consume management’s time and attention and may result in additional legal, accounting, insurance and other costs. If we do not prevail in any such proceedings, we could be required to pay substantial damages or settlement costs. In addition, the restatement and related matters could impair our reputation or could cause our counterparties to lose confidence in us. Each of these occurrences could have a material adverse effect on our business, results of operations and financial condition.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

None

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

EXHIBIT 31.1

**CERTIFICATION OF CHIEF EXECUTIVE OFFICER PURSUANT
TO SECTION 302 OF THE SARBANES-OXLEY ACT**

I, Nicolaus Radford, certify that:

1. I have reviewed Amendment No. 1 to the Quarterly Report on Form 10-Q/A of Nauticus Robotics, Inc. ("registrant");
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

**CERTIFICATION OF CHIEF FINANCIAL OFFICER PURSUANT
TO SECTION 302 OF THE SARBANES-OXLEY ACT**

I, Rangan Padmanabhan, certify that:

1. I have reviewed Amendment No. 1 to the Quarterly Report on Form 10-Q/A of Nauticus Robotics, Inc. (“registrant”);
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant’s other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant’s disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant’s internal control over financial reporting that occurred during the registrant’s most recent fiscal quarter (the registrant’s fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant’s internal control over financial reporting; and
5. The registrant’s other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant’s auditors and the audit committee of the registrant’s board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant’s ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant’s internal control over financial reporting.
